

► EF1000iS INVERTER SERIES GENERATOR

Ultimate lightweight portable electricity.

Quiet, durable and convenient, the Yamaha EF1000iS is designed for anyone seeking an ultra-portable source of electricity. It combines compact proportions with an impressive maximum operating time of 12 hours.

Ideal for camping trips and outdoor events weighing in at only 12.7kg, the EF1000iS can be used to power a range of appliances - from radios and TVs to coffee makers. It also has a 12V outlet for battery charging.

The inverter system with pulse width modulation produces higher-quality, cleaner electricity, and sound absorbing materials keep the volume down. Combined with the easy to use single sided control panel, it makes for a quiet and convenient power source.

- 1000W max, 900W rated
- Lightest weight in its class, only 12.7kg
- Compact design
- High quality inverter electricity
- Quiet operation
- Up to 12 hours running time
- 4-stroke, air-cooled 50cc engine
- Easy start, auto-decompression system.
