

## GARDEN SHREDDERS AND ACCESSORIES

- For applications in domestic gardens and landscape maintenance
- For shredding hard and soft material
- With powerful engines
- Efficient blades and shredding systems
- A wide range of models – even including noise-sensitive power tools

### GHE 105 ①

240V • 2.2 kW

Compact electric shredder with an effective electric motor for occasional shredding of medium-thickness branches and soft material. With cloverleaf opening.

Order number **6007 011 1194**

### GHE 135 L ②

240V • 2.3 kW

Compact electric shredder with a powerful electric motor for occasional shredding of medium-thickness branches. With cloverleaf opening, integrated shredding container and slow-turning, quiet roller. Folds up for particularly space-saving and easy transport.

Order number **6013 011 1124**

**GHE 150** ①

240V • 2.2 kW

Compact electric shredder with a powerful electric motor for occasional shredding of medium-thickness branches. With sandwich-type blade unit and cloverleaf opening.

Order number **6008 011 1134****GHE 250 S**

240V • 2.2 kW

Electric shredder with a powerful electric motor for regular shredding of medium-thickness branches and soft material. Ideal for shredding larger quantities of material. With sandwich-type blade unit.

Order number **6008 011 1144**

L = Quiet  
S = Chipping

① Particularly well-suited to branch material  
② Only suitable for shredding hard material

**AHB 050 SHREDDING CONTAINER**

50 l, freestanding. For collecting shredded material.

For GHE 105, GHE 150 and GHE 250 S

Order number **6903 760 2546**

# GARDEN SHREDDERS FOR EVERY REQUIREMENT

Our clear **model recommendations based on drive type, shredded material, and processing quantity** will help you find the right garden shredder for your demands. Thanks to the wide product range, our high-throughput electric garden shredders are suitable for a wide range of tasks, from occasional shredding of small quantities of green cuttings to regular shredding of thicker branches. There are also quiet models in the range, for use in noise-sensitive areas.

GARDEN SHREDDER	TYPE OF SHREDDING MATERIAL		PROCESSING VOLUME	
	MIXED	HARD	MIXED	HARD
<b>ELECTRIC SHREDDER</b>				
<b>GHE 135 L</b>	-	•		=====
<b>GHE 105</b>	•	•	==	=====
<b>GHE 150</b>	•	•	==	=====
<b>GHE 250 S</b>	•	•	==	=====

The S model is particularly well suited to processing branches.

- Mixed shredding material: flower cuttings, leaves, thin twigs, etc.
- Hard shredding material: branches, twigs, woody hedge cuttings, etc.

ELECTRIC SHREDDER	Order number	Maximum branch thickness (Ø in mm)			Cutting tool (rated speed)	Weight (kg)	Guaranteed sound power level (dB(A))	Measured sound pressure level (dB(A))	Sound pressure level uncertainty <sup>③</sup> (dB(A))	Sandwich-type blade unit	Turning technology	Cloverleaf opening
		Rated output (W)	Rated voltage									
<b>GHE 105<sup>①</sup></b>	<b>6007 011 1194</b>	35	2,200	240V	Multi-Cut 103 (2,800 rpm)	19	104	93	3	-	-	•
<b>GHE 135 L<sup>②</sup></b>	<b>6013 011 1124</b>	35	2,300	240V	Cutting roller (40 rpm)	23	94	87	3	-	-	•
<b>GHE 150<sup>①</sup></b>	<b>6008 011 1134</b>	35	2,200	240V	Multi-Cut 150 (2,800 rpm)	26	99	89	2	•	-	•
<b>GHE 250 S<sup>①</sup></b>	<b>6008 011 1144</b>	35	2,200	240V	Multi-Cut 150 (2,800 rpm)	27	100	90	3	•	-	-

L = Quiet  
S = Chipping

- ① Particularly well-suited to branch material
- ② Only suitable for shredding hard material
- ③ Uncertainty in accordance with Directive 2006 / 42 / EC
